Thanks, Cecilia and Dan.

I'm working with Thabet and Dave Carson now regarding availability.

Best,

John

If ORD can be present that would be good. Most likely for R7 Dan and Chuck Hooper will oversee this initial phase of field work.

John, I'm waiting to hear back from the PRPs when they can mob to the site to do the GCPT work. We'd like them to start as soon as they can. Cecilia is re-evaluating the list of EPA oversight people to be on-site during this phase of work.

Principles and integrity are expensive, but they are among the very few things worth having.

Hi Dan-

Welcome back!

I think I missed something today on the WL call. When is the CP and coring work starting on-site? If there are proposed dates, I can talk with folks here to coordinate schedules.

Thanks,

John
